

# Yorkshire & Humber Care Record GP Practice Newsletter

In the spotlight..... **Dr Chris Stanley**

Welcome to the next edition of the Humber and North Yorkshire (HNY) YHCR Newsletter. This month we hear from Dr Chris Stanley, who has taken up the role of lead clinical customer for the YHCR programme in HNY.

I'm delighted to be part of the shared care record. I'm a long-time supporter since the early days of the YHCR and have seen a huge range of the benefits it provides to systems but more importantly on an individual basis - real difference to real patients.

I could go on all day about the benefits and bring numerous examples where patient care has been improved, made safer or more efficient, however in this newsletter I just wanted to introduce myself, this new role and what I hope to bring to the YHCR.

I'm a GP in York with Haxby Group and have been for 7 years, I've had roles with the CCG, LMC and local Digital Boards and hope to bring this experience to my clinical lead role for the YHCR. I have joined the team to ensure that clinical leadership is at the heart of the programme, it is testament to the focus of the team - we really want this shared care record to be clinically driven keeping patients and clinicians at the heart of the design and rollout. In my first few weeks in the job, I have seen the team's dedication to this and also just how incredibly complex it is to create a shared care record and keep all the moving parts working in harmony. There is no doubt in my mind that this mammoth unseen task is going to deliver real difference to the way we can care for our patients.

If anyone wants to get in touch and hear more about the record and how it can work for your organisation, please contact me direct using this link [contact me.](#)
